

QT Exchange rates

- 1. George goes on holiday to Italy. The exchange rate is £1 = €1.15. He changes £400 into Euros (€).
 - (a) Calculate how many Euros (€] George receives.
 - (b) When George returns from holiday he changes €169 back into pounds. The exchange rate is now £1 = €1.18. Calculate how many pounds (£), to the nearest penny, George receives.

 $\begin{cases} (a) & \notin : \notin \\ (a) & \notin : \notin \\ (b) & \notin : \notin \\ (a) & \notin : \notin \\ (a) & \notin : \notin \\ (b) & \notin : \notin \\ (a) & \notin : \notin \\ (a) & \notin : \notin \\ (b) & \notin : \notin \\ (a) & \notin : \notin \\ (a) & \notin : \notin \\ (b) & \notin : \bigoplus \\ (b) & \mapsto \\$

- 2. Carys goes on holiday to America. The exchange rate is £1 = \$1.38. He changes £450 into dollars (\$)
 - (a) Calculate how many dollars (\$) Carys receives.
 - (b) When Carys returns from holiday she changes \$130 back into pounds. The exchange rate is now £1 = \$1.45. Calculate how many pounds (£), to the nearest penny, Carys receives.

3. Josh is on holiday in Australia. He spends \$39 on a cuddly koala toy, as a souvenir. The exchange rate is £1 = \$1.84. Calculate how much Josh spent in pounds.

€: 1 1:1.84 N 21.20: 39 ~ € 21.20.

4. Laiba bought a new hoodie while on holiday in Turkey. She paid 249 Turkish lira. The same hoodie in the UK is £24.99. The exchange rate is £1 = 12.01 Turkish lira. Is the hoodie cheaper in Turkey or in the UK? You must show your working.

1 : 12.01

Torkey is cleaper €20.73

5. A new watch costs ± 21000 in Japan. The same watch costs £169.99 in the UK. The exchange rate is £1 = ± 153.48 .

Is the watch cheaper in Japan or in the UK? You must show your working.

(38.83; 71000) (; 123.48 F; £

Cleaper in Japan £ 136.83

6. The exchange rate in London is £1 = 19.71 South African Rand. The exchange rate in Cape Town is one South African Rand to £0.05. Lauren wants to change some pounds in South African Rand. In which of these cities would Lauren get the most South African Rand? You must show your working.

70'000; 1000) 15; \$ coto 2000.

some sold more sold in Cope Town.

7. In Sweden a new canal boat costs 750,000 Swedish krona. In Denmark the same canal boat costs 598,000 Danish krone.

The exchange rates are:

Sweden £1 = 11.85kr

and

Denmark £1 = 8.68kr

Calculate the difference between the cost of the boat in Sweden and Denmark.

Give your answer in pounds to the nearest penny.
